libre-mesh firmware - Task # 18

Status:	New	**Priority:**	Normal
Author:	Gui Iribarren	**Category:**	
Created:	06/11/2013	**Assignee:**	Gui Iribarren
Updated:	10/20/2013	**Due date:**	
Subject:	Integrate spectral scan into LUCI		

Description

take simon wunderlich code, separate processing functions from display functions, removing dependence on SDL,

and port that into openwrt, integrating it into LUCI, maybe within luci-bwc to be part of realtime graphs
