

libre-mesh firmware - Bug # 38

Status:	In Progress	Priority:	Urgent
Author:	Gioacchino Mazzurco	Category:	
Created:	10/28/2014	Assignee:	Gui Iribarren
Updated:	10/28/2014	Due date:	
Subject:	vlan interfaces broken with proto none		
Description			
wireless vlan interfaces get continuously deleted and recreated when used with proto none, this affect in particular proto bmx6 that gets his wireless interfaces vlan invalidated			
using proto static seems a viable workaround			

History

- #1 - 10/28/2014 03:09 pm - Gioacchino Mazzurco
- Assignee changed from Gioacchino Mazzurco to Gui Iribarren
 - Target version set to 14.08

Workaround merged in develop (83e5a2d19fb184bf1a18ed0b2a751a1903ccf0d2) and release/14.08 (4f9229ab7538cdd759c3269ed97cb995702c6640)

Still waiting for upstream fix (seems a netifd bug)
